

WC 2026 Youth Training Report

Where the starting-lineup players train between ages 5 and 16?

Data through 75 completed matches · July 5, 2026

Completed matches	Unique starters	Unique training countries	Unique training clubs
75	754	53	990

Top 20 Training Countries

Unique starters counts each player once for every country where they trained, regardless of how long they spent there.

Weighted starters allocates each player as a fraction across countries in proportion to the years they spent training there between ages 5 and 16 — for example, a player who trained 8 years in France and 4 years in Spain contributes 0.67 to France and 0.33 to Spain. See Appendix 1 for the full counting rule.

#	Country	Unique starters	Weighted starters
1	France	70	59.48
2	England	49	36.51
3	Netherlands	47	39.27
4	Spain	38	27.93
5	Germany	38	27.63
6	United States	31	21.59
7	Belgium	28	22.78
8	Argentina	26	20.33
9	Portugal	23	16.80
10	Norway	22	17.16
11	Sweden	21	15.73
12	Austria	19	17.08
13	Switzerland	17	15.90
14	Japan	17	15.35
15	Brazil	17	15.17
16	Australia	17	13.13
17	Paraguay	17	10.28
18	Uzbekistan	17	6.00
19	Czechia	16	12.50
20	Canada	16	12.29

Top 20 Training Clubs

Same year-share method as above, applied at club level. Players who moved between clubs are split across each club in proportion to time spent there.

#	Club	Country	Unique starters	Weighted starters
1	Dinamo Zagreb	Croatia	11	5.89
2	Anderlecht	Belgium	10	6.11
3	Bayern Munich	Germany	10	5.86
4	Paris Saint-Germain	France	10	4.53
5	Barcelona	Spain	10	4.24
6	Hajduk Split	Croatia	9	5.81
7	Ajax	Netherlands	9	5.59
8	PSV	Netherlands	8	4.90
9	Independiente del Valle	Ecuador	8	4.07
10	Manchester City	England	8	3.84
11	Benfica	Portugal	7	3.37
12	Genk	Belgium	7	1.68
13	Fulham	England	6	3.97
14	Slavia Prague	Czechia	6	3.67
15	Chelsea	England	6	3.49
16	Rennes	France	6	3.46
17	Lyon	France	6	3.09
18	Red Bull Salzburg	Austria	6	3.04
19	Cerro Porteño	Paraguay	6	2.55
20	Al Ahly	Egypt	5	4.00

Local-Trained Ratio by National Team

Percentage of each team's tracked starters who spent fewer than 5 years training in a foreign country between ages 5 and 16. Sorted from highest to lowest. Players without year data are excluded from this count.

National team	Tracked starters	Locally trained	Local ratio
England	17	17	100%
Netherlands	13	13	100%
Belgium	17	16	94%
Spain	16	15	94%
Switzerland	16	15	94%
Portugal	14	13	93%
Australia	17	15	88%
Scotland	16	14	88%
Brazil	15	13	87%
France	15	13	87%
Korea Republic	14	12	86%
Ecuador	13	11	85%
Austria	17	14	82%
Argentina	21	17	81%
Norway	21	17	81%
Germany	14	11	79%
Sweden	14	11	79%
Canada	17	13	76%
USA	21	16	76%
Mexico	17	12	71%
Japan	23	16	70%
Saudi Arabia	15	10	67%
Senegal	16	10	62%
Uruguay	13	8	62%
Croatia	29	17	59%
New Zealand	14	8	57%
IR Iran	15	8	53%
Haiti	14	7	50%
Paraguay	16	8	50%

Czechia	29	14	48%
Egypt	15	7	47%
Ghana	16	7	44%
Jordan	14	6	43%
Côte d'Ivoire	15	6	40%
Türkiye	28	11	39%
Uzbekistan	17	6	35%
Iraq	16	5	31%
Tunisia	16	5	31%
Colombia	14	4	29%
Cabo Verde	18	5	28%
Bosnia and Herzegovina	30	8	27%
Panama	15	4	27%
Qatar	15	4	27%
Algeria	16	4	25%
Morocco	15	3	20%
DR Congo	14	2	14%
Curaçao	13	1	8%
South Africa	16	1	6%

Appendix 1 — Data Conditions and Counting Rules

Data sources

- **Starting XIs:** Wikipedia 2026 FIFA World Cup group and knockout-stage pages, scraped via BeautifulSoup. Each starting-XI row is linked to its match section URL.
- **Youth-club histories:** Wikipedia player infobox 'Youth career' section, fetched per player. Year spans and club names are parsed directly from the infobox table.
- **Club countries:** Inferred from each linked club's Wikipedia page lead text and categories using phrase-pattern matching.

Age window

Only training that overlaps the age range 5–16 is included. If a Wikipedia source gives a spell of 2008–2015 for a player born in 2000, that is converted to ages 8–15 and clipped to the 5–16 window.

Counting rule for players who moved

Each player's contribution is split across clubs and countries in proportion to the number of years they spent at each during ages 5–16. For example, a player who trained 8 years in France and 4 years in Spain contributes 0.67 to France and 0.33 to Spain. Where no year data is available, an equal split across clubs is used as a fallback.

Confidence tiers

- **Medium:** year span extracted from Wikipedia infobox; age estimates calculated from the player's birth year.
- **Low (fallback):** only a club name was available with no year span. The club is counted in unique starters but contributes 0 to weighted starters.
- **Unresolved:** 2 players have no usable youth section on Wikipedia. They are excluded from all rankings.

Known limitations

- The tournament was still in progress on the data collection date (2026-07-05). Knockout matches from the Round of 16 onwards are partially included.
- Club-country assignment is automated and may misclassify youth academies with ambiguous Wikipedia pages.
- Multi-country starters (102) are split across countries; multi-club starters (392) are split across clubs.
- Country backfill covers 1385 of 1501 youth-club rows. Rows without a country are excluded from country rankings only.

Players with no training data

The following 2 starters have no rows in the youth training table and are excluded from all rankings. Youth history still needs to be researched for these players.

Player	National team
Ivan Šunjić	Bosnia and Herzegovina
Pavel Šulc	Czechia

Source data

Collected data for this report can be found at: github.com/lorihe/WC2026-youth-clubs/tree/main/data

900+ youth clubs weren't easy to trace. If you spot an error or have a better source, comments are genuinely appreciated.
